

## WHAT IS SOLUTIONS JOURNALISM?

- Features a **response** to a problem and **how** it works
- Provides **evidence** of results, looking at effectiveness, not just intentions
- Seeks to provide **insights** that can help others respond, too
- Discusses **limitations**, avoids hype and does not look like fluff

## KEY QUESTIONS TO ASK

- Who is doing it better?
- Is there a solutions angle to this story?

## AND REMEMBER

- Look for what's happening now that's more than a do-gooder effort
- There is no one best solution to any social problem
- Don't overclaim or predict the future
